

## Clark Forklift Parts

Clark Forklift Parts - Presently, there are over 350,000 Clark forklifts performing globally, and more than 250,000 operating in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specific items designed for 20 unique brands of lift trucks and automated equipment. Your regional Clark Dealer is your total source for availability of all your parts needs provided by Clark Totalift.

Clark features a phenomenal Parts Supply team. The items warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a really outstanding global support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is currently a standard feature on every lift truck.

Clark has a unrelenting objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its production plants. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the very economical and beneficial system of "Lean Manufacturing" for its assembly facilities and use of resources. This structure was developed to acknowledge the most efficient method of manufacturing facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the effectiveness and brilliance of their products while minimizing expenses. The new value engineering program combines modern product improvement and delivers improved customer support and service within the industry.
