

## Spreader Bar for Forklifts

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the largest independent spreader manufacturer all-around the world. They are a dedicated producer of spreaders intended for numerous various applications like for instance the handling of containers, swap bodies and trailers.

Engineering is done in-house by using the most up-to-date CAD systems and FEM tools. The ELME company presently employs more than one hundred twenty five workers. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-around the world.

The ELME product series offers spreaders used for a variety of trailer and container handling operations. Several of their inventory consist of: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes as well as a huge range of attachments.

Production and manufacturing of ELME products are established in highly automated purpose designed factory. In the year 2008, they created 1150 spreaders by making use of quality parts so as to ensure reliability and excellent standards. Major features of ELME comprise design simplicity, market feedback and inventive modular spreader concept.
